Post to mentor Darina Takova

Darina Takova

I would like to share with you my enthusiasm and joy from my recent masterclass in Belgrade. I am grateful for Katherine Haast's invitation. This event is a result of the long term collaboration and solidarity between me and Operosa and our common idea to educate and support young opera artists from all over the world. I am once again charmed by the amazing voices of all of the wonderful girls, who participated in the workshop, by the interest from their colleagues and professors and last, but not least, by the incredible organisation, care and attention from everybody on the Operosa team. I admire Katherine and her work and her constant struggling to place Operosa among some of the most important international festivals and organisations, dedicated to the young talents and I am more than happy that this work and dedication is finally giving brilliant results, that are of great importance not only for Serbia, but also for the whole region. Helping the young is the only winning formula...

Dearest Darina, Thank you so much for coming to Belgrade and giving us another amazing chance to learn from you! Master Class with you was of great importance to young singers in Serbia and to Operosa! We hope that we will see you here again! Much love, Operosa Team
